To Whom It May Concern:

Recently, there have been a number of press releases and news stories regarding the problems associated with gypsum board products imported from China and distributed in various markets. We have researched our purchasing records and to the best of our knowledge and belief, GTS Interior Supply did not purchase or distribute any wallboard product that originated in China. We will continue to monitor this situation and will make you aware of any further developments should they arise.

If you would like to discuss this matter further, please contact your local sales rep for any assistance or additional information on this subject.

Thank you for your business.
